

AIR FILTRATION SYSTEMS

Optional on Hard Drive Shredders Series 2 & Series 3

The AMS air filtration system was designed to help reduce possible odors and/or contaminants from escaping into the atmosphere during hard drive destruction.

Standard Features:

- Motor: 1 HP, 3 phase
- 400 CFM at 3" static water gauge pressure
- Inexpensive and disposable pre-filter protects the blower and HEPA filter
- 99.97% efficient on particles 0.3 micron and larger
- The pre-filter is easily accessible & connects to the inlet by ductwork
- The blower is housed in cast aluminum
- The blast gate serves as an air flow control valve

Ameri-Shred's air filtration systems consist of six major components which include the inlet, pre-filter, blower, blast gate, HEPA filter and ductwork.

An air filtration system must be part of your original order. It cannot be retrofit at a later date.
